

Healthcare Project Architect

Join Ratcliff to discover what's important, imagine the potential, and design for extraordinary outcomes.

Ratcliff's healthcare practice is a regional leader in the planning and design of complex healthcare facilities, including acute and ambulatory care facilities and medical campus master plans. We are looking for a **Healthcare Project Architect** who thrives in a teamwork environment and is motivated to positively transform the built environment.

What You'll Be Doing

- Plan, design, and organize internal work for healthcare focused projects throughout all phases
- Coordinate with external consultants and regulatory agencies
- Write and edit architectural specifications
- Perform QA/QC and technical reviews
- Provide backup to the Healthcare Project Manager with regard to client communications
- Build knowledge and expertise of appropriate building codes and industry design standards
- Participate in continued learning opportunities and efforts to improve efficiency

Who We're Looking For

- Minimum 5 years of professional experience in the technical production of architectural projects
- Interest or experience in healthcare-oriented project work is desirable
- BArch required; MArch preferred
- Architectural licensure, LEED accreditation a plus
- Must work well in a collaborative/integrated environment
- Strong presentation and graphic abilities using Revit, SketchUp, AutoCAD, Adobe Creative Suite, Bluebeam, and Microsoft Office
- Candidates must have legal working status in the U.S. as Ratcliff will not be sponsoring work visas at this time
