

Healthcare Project Manager

Join Ratcliff to discover what's important, imagine the potential, and design for extraordinary outcomes.

Ratcliff's healthcare practice is a regional leader in the planning and design of complex healthcare facilities, including acute and ambulatory care facilities and medical campus master plans. We are looking for a Healthcare Project Manager who demonstrates a comprehensive understanding of healthcare architecture and significant experience leading the design and development of such projects.

What You'll Be Doing

- Lead internal and external project teams on a variety of healthcare focused projects
- Mentor team members to increase breadth of experience and knowledge
- Perform QA/QC and technical reviews
- Develop and execute a management work plan for project(s)
- Oversee the design, production, and technical development of projects
- Maintain project budgets and client relationships and expectations

Who We're Looking For

- Minimum 10 years of professional experience in the production and management of architectural projects
- Experience in OSHPD (HCAI) and or healthcare-oriented project work
- BArch required; MArch preferred
- Working knowledge of California Building Codes and the ADA
- Architectural licensure desired, LEED accreditation a plus
- Ability to manage clients and design teams in a collaborative/integrated environment
- Desire and interest in presenting at interviews or professional organization conferences
- Strong presentation and graphic abilities using Revit, SketchUp, AutoCAD, Adobe Creative Suite, Bluebeam, and Microsoft Office
- Candidates must have legal working status in the U.S. as Ratcliff will not be sponsoring work visas at this time
