

DESIGNER

Gunkel Architecture is a 12-person office in Emeryville, CA specializing in community-focused multi-family and mixed-use projects and inspiring, modern homes. We believe in a diverse and inclusive mix of talented people who want to come, stay, and do their best work. As such, we strive to provide our staff with a healthy work-life balance and well-rounded experience in a work environment that fosters innovation, leadership, and mentorship.

We are currently seeking a talented Designer with a minimum of 3 years of working experience and a solid comprehension of technical drawings to work with our teams on a range of project types. The position will support our senior staff in the production of Construction Documents and entitlement packages, such as modeling, design, drafting, and detailing.

Requirements:

- Bachelor's degree in Architecture
- 3-5 years working experience in architecture
- Experience in multi-family housing
- Proficiency in Adobe Creative Suite and Rhino
- 2 years working in AutoCAD or Revit

The ideal candidate has a commitment to socially- and environmentally- focused work, has had a substantial role in working drawings for mid- to large-scale wood-framed multi-family housing developments, and can communicate effectively with other team members. The Designer will be required to understand portions of the building code, develop construction details, and coordinate the electronic and physical documents.

We offer competitive salaries, health benefits, and a 401k plan. Interested candidates should email PDFs of your resume and work samples (totaling no more than 10MB) to angela@gunkelarchitecture.com.
